of Northern Ireland

# Elected Rep Safety - Headlines

Since 1<sup>st</sup> January 2022 MLAs have reported:

- **149 incidents**, including
- **79 crimes**.

**Under-reporting** appears to be an issue.

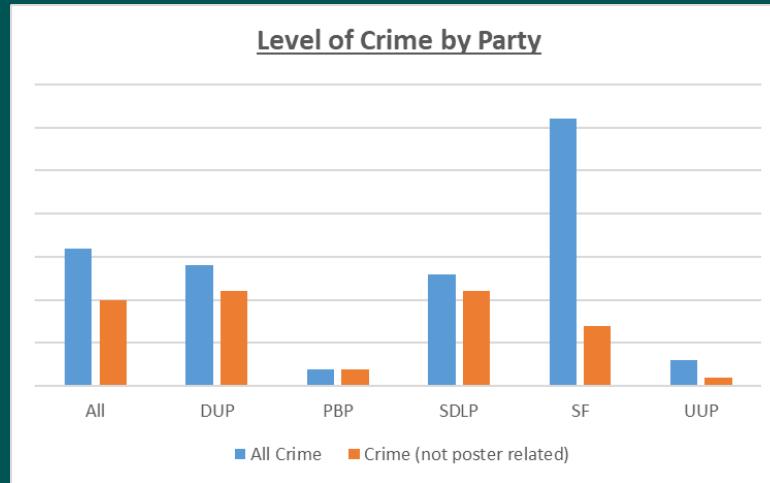

**Police Service**  
of Northern Ireland

# Elected Rep Safety - Headlines

Elected representatives from **all parts of Northern Ireland** are affected by crime

**Party affiliation** makes no difference

**Police Service**  
of Northern Ireland

# Elected Rep Safety - Headlines

## **Elections are a major factor**

- Election posters were a factor in 47% of reported crimes

## **26% of current MLAs have been a victim of a crime in the past three years**

- This rises to 44% if poster / election crime is included

## **Repeat victimisation is an issue**

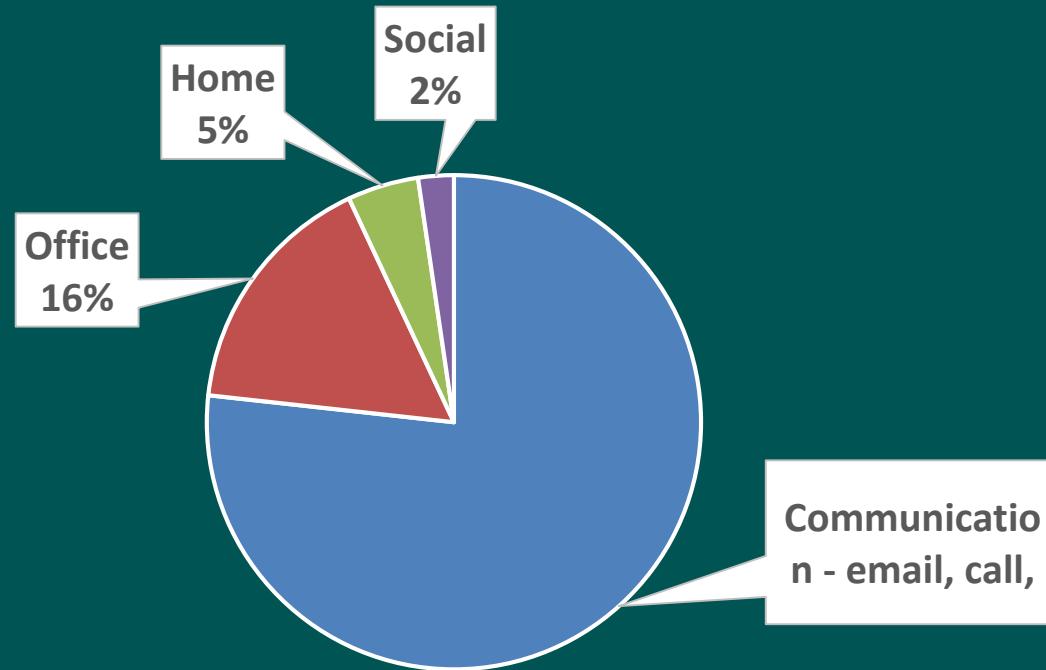

- Some MLAs are repeatedly targeted

**Police Service**  
of Northern Ireland

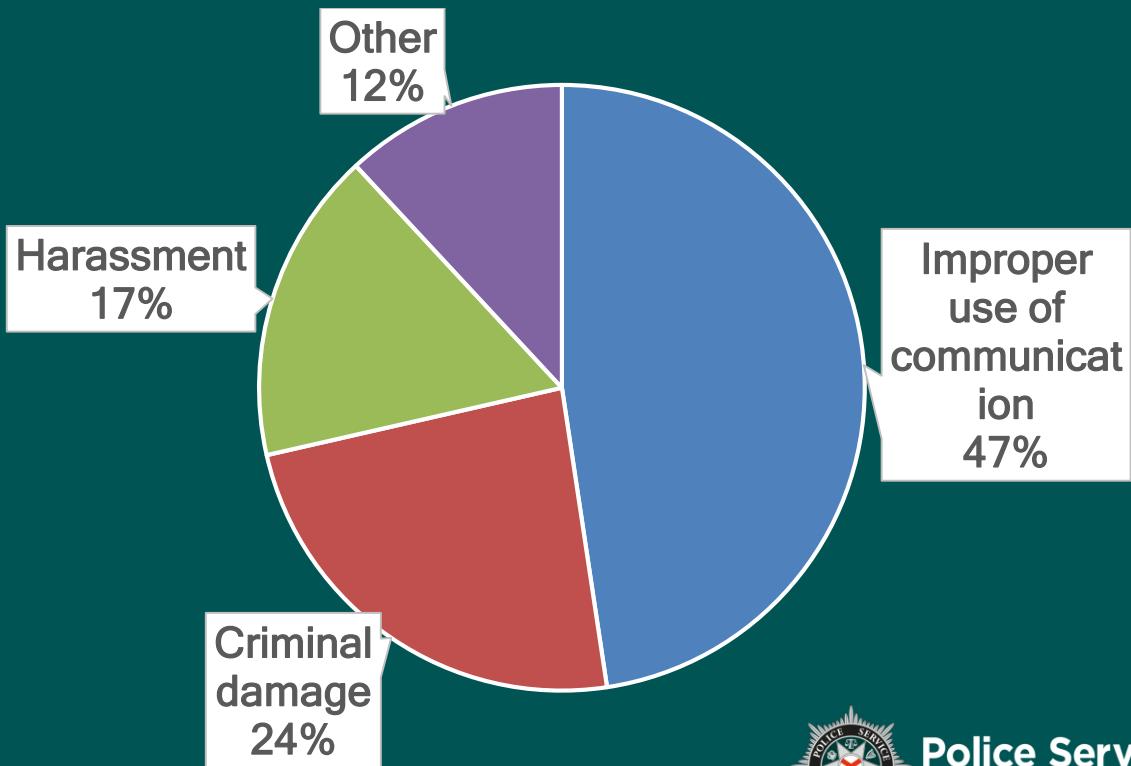

# Where is crime happening?

Most offences are 'remote': abusive, intimidating or obscene communications

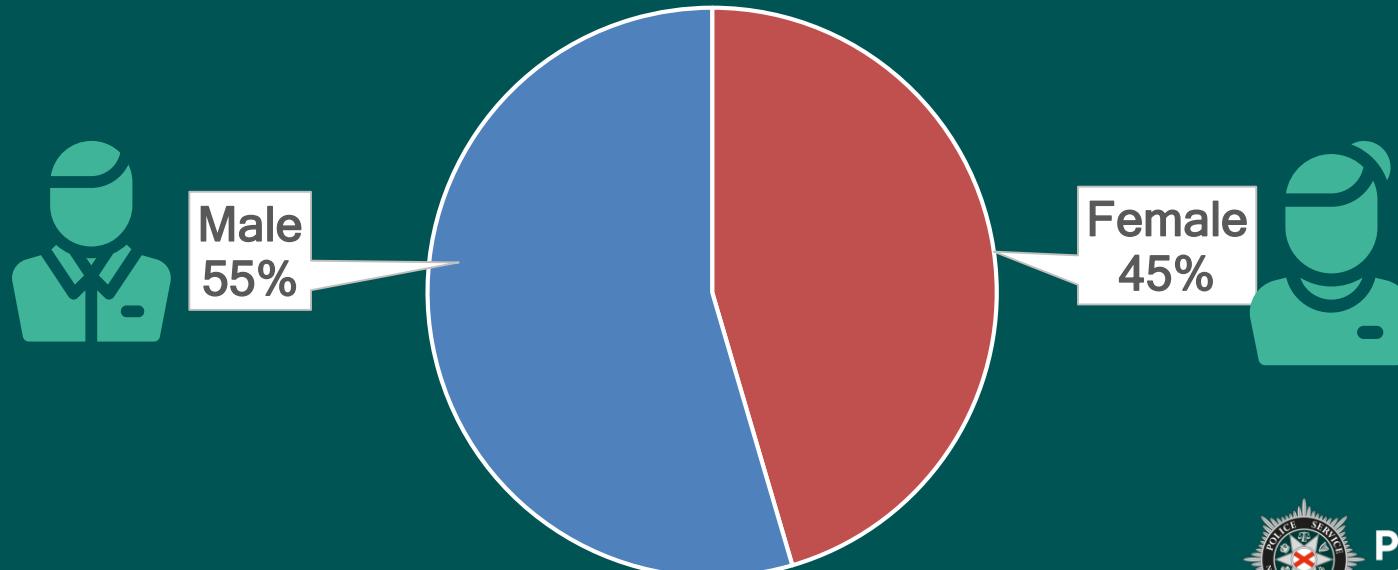

# What crime is happening?

- Often multiple offences but **Communications offences** are the most common.
- ‘Cyber enabled’ / online offences a recurring theme

# Gender Breakdown

- 38% of MLAs are female but they suffer 45% of crime

**Police Service**  
of Northern Ireland

# What are we doing?

**Joint working** with NI Assembly and other partners

- Building understanding of the issue

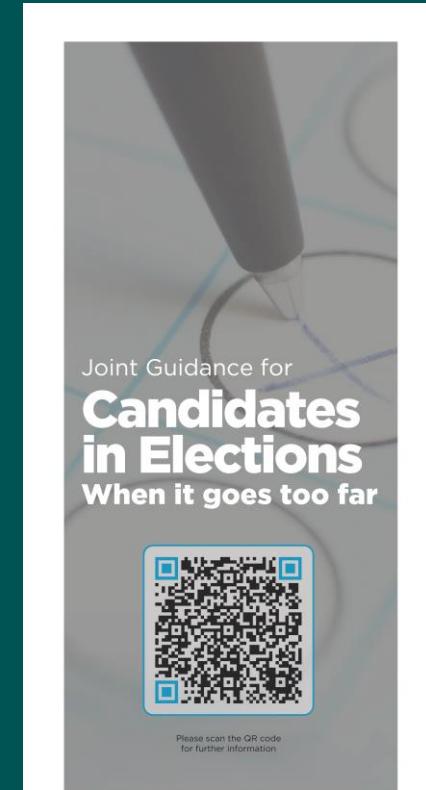

A focus on **prevention** of crimes and incidents

Providing advice and guidance

- Crime Prevention – surveys and risk assessments
- Cyber crime
- Online Resources

MLA Safety officer and MLA safety group

- Increased reassurance for victims and enhanced response

# AWAReNESS

**Prevention is Better Than Cure**

Desiderius Erasmus (1466-1536)

**Police Service**  
of Northern Ireland

# When are you vulnerable?

- Where patterns are set / predictable routines
- When travelling by vehicle
- Online - when using technology
- Unfamiliar surroundings
- When we are complacent

**Police Service**  
of Northern Ireland

# Engaging with the Public

- Avoid lone working –conduct visits accompanied
- Keep a record of any intimidating behavior
- Don't engage with anyone harassing you (on and offline)
- Use “report abuse” tools on social media
- Block and report trolls
- Know what to do if you are confronted on the street
- Set up your phones emergency SOS function

# Canvassing Safety

- Be prepared – not scared
- Focus on group safety - planned activity / regular check ins
- Have a plan if followed / confronted
- Keep a record
- Use technology to canvass more safely
- If you feel threatened call the police

**Police Service**  
of Northern Ireland

# **Situational Awareness**

**Awareness of what is happening around you –  
recognizing threats to your safety and security**

**Identifying threats early = quicker reaction to danger**

**BE ALERT – NOT ALARMED**

**‘Plan ahead – Know what to do’**

**Police Service**  
of Northern Ireland

# Cyber Protect

**D/Constable Samuel Kinkaid  
NI Regional Cyber Protect Officer**

Report online. Call 101. In an emergency call 999

we care  
we listen  
we act

**Police Service**  
of Northern Ireland

# Protect & Prepare

- The majority of cyber crime is preventable by taking simple steps to secure your cyber security. (Protect)
- It is important to be in a position to respond appropriately if you should experience a cyber incident. (Prepare)

we care  
we listen  
we act

**Police Service**  
of Northern Ireland

# NCSC - High Risk Individuals

High-risk individuals include those working in political life (elected representatives, candidates, activists and staffers).

## Focus on good cyber behaviours

- Strong Passwords*
- Two Step Verification / MFA*
- Protect Devices*
- Think about what you post*

**Cyber security for high-risk individuals**

Follow these steps to be significantly safer online and help defend against targeted attacks.

**Help if you're targeted**

Don't panic if you've clicked on something - report it to your organisation's IT support, even if it happened on a personal device.

Also tell them about suspicious emails or messages you receive, even if you haven't clicked on anything.

**What is a high-risk individual?**

If the nature of your work means you have access to certain sensitive information, you may be of interest to criminals. This includes people who work in:

- politics (selected representatives, candidates, activists and staffers)
- academia
- journalism
- the legal sector

**Protect your devices**

**Install updates**

- If you receive a prompt to update your device or app, do it - it stops attackers taking advantage of security holes which they can exploit to get access.
- Enable the auto-update option, so you don't have to remember.
- Only download software and apps from official stores, like Google Play or Apple App Store.

**Replace old devices**

- Old phones and laptops that are no longer supported are more vulnerable to attack as they can't receive updates - upgrade your device if support is ending soon.

**Use 'Lockdown Mode'**

- On Apple devices, 'Lockdown Mode' provides added security for individuals who might be targeted by sophisticated threat actors - enable it.

**Protect your accounts**

**Use strong passwords**

- Use strong passwords to increase complexity - and use a unique password unique for each account.
- Particularly for your most important accounts, like email, social media and online banking.
- You can also use a password manager which helps you remember different passwords for different accounts.

**Set up two-step verification**

- Use an authentication app like Google Authenticator or Microsoft Authenticator.
- 2SV adds another layer of security so that even if an attacker knows your password, they still can't access your account.

**Think about how you use social media**

- Be careful about how much personal information you share publicly.
- Review your security settings to decide who can see what.
- Avoid accepting message requests from unknown accounts - consider calling first to verify who they are.
